The 6th FESS & Septoplasty Course

We're delighted to be able to invite you to our 6th course in FESS and Septoplasty.

The course is a **hands-on simulation course** meant for junior ENT doctors with an interest in Rhinology. During the course we will be using sheep heads to train multiple endoscopic sinus surgery procedures as well as septoplasty using Karl Storz endoscopy equipment.

Your training will be supervised by two experienced rhinologists from the Køge ENT department. Each participant will be given two sheep heads. As the course is hands-on, it is very important that you have read our course material in advance.

Each course is one day in duration and is limited to a maximum 15 participants each day.

Date: Expected to be held in the Autumn of 2024.

Both days from 08.30 to 15.30.

Location: *To be announced*

Language of Instruction: English

Information & Registration

Information

Places are limited to 30 (15 per day) and will be given on a first come, first served basis.

As the date and location is still undetermined, we have not started our registration. However, if you are interested in the course, please sign up on our waiting list to be given priority access and be kept up to date.

Course fee

To be determined - previous courses were held at a course fee of 1900 DKK including MOMS/VAT.

The course includes lunch and refreshments.
