## **The Pediatric ENT Symposium 2024**

The Danish ENT Academy is delighted to host the first Pediatric ENT Symposium 2024.

This symposium will include lectures about various common illnesses found in children such as tonsillitis, sinusitis and ear infections using the latest guidelines for medical treatment and the most advanced techniques for surgical treatment. Thus, the aim of this symposium is to concentrate and disseminate information concerning prevention, cure and care of otorhinolaryngology disorders in infants and children due to developmental, degenerative, infectious, neoplastic, traumatic and social causes.

We welcome both doctors and nurses as well as both presenters and delegates to this exciting scientific program, where we have a great lineup of Danish and international speakers.

The symposium will take place in beautiful surroundings at The Natural History Museum of Denmark, where there will be plenty of opportunity to network with other doctors as a guided tour and course dinner at the museum is included in your ticket.

**Language:** English

**Location:** The Natural History Museum of Denmark (Årster Voldgade 5,7, 1350 Copenhagen K, Denmark)

## Confirmed speakers

*default watermark*

**Prof. Michael J. Rutter, BHB, MBChB, FRACS**

Cincinnati, USA

Director of Clinical Research, Division of Pediatric Otolaryngology & Head and Neck Surgery,  
University of Cincinnati.

Mike is an ENT surgeon specializing in pediatric otolaryngology with an emphasis on airway problems in children, adolescents, and young adults. His interests include tracheal reconstruction and complex airway surgery.

*default watermark*

**Leen Maes**

Ghent, Belgium

Leen Maes is an audiologist and associate professor specialized in vestibular assessment techniques in children and adults. She teaches 5 different vestibular courses at the audiology and physiotherapy department of the Ghent University. Her vestibular research group investigates the impact of a vestibular dysfunction on the motor and cognitive function in healthy as well as vestibular-impaired subjects (children and adults) [see more in the symposium booklet].

*default watermark*

**Prof. Ann Hermansson, MD, Ph.D.**

Lund, Sweden

**Michelle Wyatt**

London, United Kingdom

Michelle Wyatt is Head of the Departments of ENT Surgery, Audiology and Cochlear Implantation at Great Ormond Street Hospital for Children. She is also an Honorary Associate Professor at the Institute of Child Health, University of London and the President of the British Association of Paediatric Otolaryngology and sits on the council of the Section of Rhinology and Laryngology at the Royal Society of Medicine, having recently been elected to be the incoming section President in November 2024.

*default watermark*

**Malin Wendt**

Karolinska, Sweden

Malin Wendt is a senior Pediatric ENT consultant and Head of Department for Upper Airway Surgery in Karolinska, with main clinical focus on pediatric airway/aerodigestive challenges and management of vascular anomalies. Malin is co-Head of the Karolinska Pediatric Aerodigestive Team (KPAT) and is representing Karolinska in the European Reference Network Cranio/Rare ENT-disorders. She is Secretary in the board of the Swedish Society of Pediatric Otorhinolaryngology.

*default watermark*

**Prof. Therese Ovesen, MD, DMSc.**

Å rhus, Denmark

Therese Oversen is Professor of Otolaryngology-Head and Neck Surgery at Aarhus University and Professor and Senior Consultant at the ENT Department, GÅ, dstrup Hospital, Denmark. She has over 150 peer-reviewed publications and is a reviewer for several international journals including Laryngoscope, British Medical Journal, Clinical Otolaryngologica, International Journal of Pediatric Otorhinolaryngology and Acta Otorhinolaryngologica.

*default watermark*

**Prof. Bo Chawes, MD, PhD, Dr. Med.**

Copenhagen, Denmark

Prof. Bo Chawes is a pediatrician and works half-time as consultant at the Department of Pediatrics and Adolescent Medicine and half-time as research lead on Danish Center for Children's Asthma. He is a professor in pediatrics at University of Copenhagen with lead in asthma and allergies in children. Bo researches reasons for asthma and allergies in children and is behind several big randomized studies in regards of primary, secondary and tertiary prevention of asthma and allergies in young infants.

She has extensive experience in the field of audiology covering the medical, technical, and educational areas.

She has experience with fitting hearing aids, cochlear implants and AVT and is a Certified Auditory Verbal Therapist (Cert. AVT) â?? guiding parents and professionals.

*default watermark*

**Sofie Krarup, Medical Student**

Aarhus, Denmark

Sofie Krarup is a medical master student at Aarhus University. She is a part of a research group at the ENT Department, GÅ, dstrup Hospital Denmark that focuses on balance problems in children.

## Research Poster Presentations

We welcome you to submit a poster for the scientific poster part of the symposium.

Poster topics can be both basic science research and clinical research/case studies. Posters will be on display during the symposium and an extra certificate (poster presentation) will be awarded over and above the Symposium Attendance Certificate. The two best posters are presented during the last session of each meeting (see the programme below).

**The winning poster will be awarded a prize of 2000 Danish kroner or one free registration to a DENTA symposium or course of your choice. All participants who submit an accepted poster for the meeting will be given a 1000 Danish kroner refund to the cost of registration. Please consider submitting a poster for this meeting.**

To submit posters, please write to Mike Papesch: mail: [chairman@entdenmark.com](mailto:chairman@entdenmark.com)

### Programme

## Symposium Programme

**Day 1 | October 24<sup>th</sup>**

[table id=pediatric-1 /]

**Day 2 | October 25<sup>th</sup>**

[table id=pediatric-2 /]

## Information & Registration

### Event Fee

**3500 DKK:** Consultants & Senior registrars

**3000 DKK:** Junior doctors, nurses & other healthcare professionals

The above-mentioned course fee includes lunch, refreshments, a guided tour of the course venue (the Natural History Museum of Denmark) and course dinner on the first day (in the Botanical Gardens next to the venue).

### *1-day tickets*

**2000 DKK:** Course day one only (includes event dinner)

**1500 DKK:** Course day 2 only.

*All stated prices include MOMS/VAT.*

## Accommodation

Accommodation is **not** included in the event fee, but DENTA has received a 10% discount rate on hotel rooms at [Hotel Wake Up](#) Copenhagen for our delegates to use during their stay in Copenhagen (the discount is available via the link above).

The event is held at [the Natural History Museum of Denmark](#) – just a few minutes walk from Nørreport Station, which is easily reached by metro, local S-train and regional trains.

With its location in central Copenhagen, there are plenty of excellent options for accommodation near the venue.
